Application data and transitions

Fictional case data and worked reasoning

KI06 · The model provided in July 2025 and the model provided independently in January 2027 have different time references.

Test point	Purpose or comparison	Observation	Decision
Model M1	**Before August 2, 2025 in traffic**	Date 15 July 2025.	Examine Article 111(3). 2. August 2027 as a reference.
Model M2	**Independent new model**	19 January 2027 as first made available.	Restrain obligations for new GPAI models separately.
Technical marking	Article 50(2) for system placed on the market before 2 August 2026	The date of the transfer is July 2026. December 2, 2026 as a transitional date.	

Expected result

A time-limit sheet with date of application, advance date, confirmed deadline and open transitional decisions.

Confirm mandatory path and role

Provide and provide evidence

Decide on the lead, resubmission and old stock

Application data and transitions

For your observation, specify a findable document.

Calculate the calendar data per mandatory path. Support the system status, a new provision and the check of the old inventory separately.

Verification identification, legal entity and date of processing and responsible body

Role and compulsory path

First made available on

Source to version level

Application or transition date

Start of work and progress

Application data and transitions

Refer remedial and post-test to the original test order.

Findings and supporting evidence

Old stock and subsequent change

Tested follow-up test with date, observation and version documentation

Confirmed date and resubmission

Release by and on the open order and date
