Transparency and labelling per channel

Fictional case data and worked reasoning

KI03 · The hint is in time for three out of four ways. Direct access shows it only with the answer and receives a correction order.

Test point	Purpose or comparison	Observation	Decision
Normal accesses	Note before or during the first interaction	Web, app and QR code show it in time.	3 Accesses with receipt.
Direct access	**First dialogue with appropriate information**	Note only appears with the first answer.	Correction and new testing of the same path.
Negative test	**Visual and read out**	**The output is still hidden for screen readers.**	Open accessibility findings.

Expected result

A channel-compliant release with documented notice, export receipt and correction order.

Mandatory path and responsible person per issue

Log first contact and export from user's perspective

Release publication after counter-test

Transparency and labelling per channel

For your observation, specify a findable document.

Check the observed time of a notice, accessibility and for relevant content the technical marking per output route.

Verification identification, legal entity and date of processing and responsible body

Service, version and access path

Responsible role and mandatory path

Date of the notice

Accessibility and technical proof

Condition and evidence observed

Transparency and labelling per channel
