Match product function and registration documents

Fictional case data and worked reasoning

A fictitious machine manufacturer compares two versions of a packaging machine. In the first one, an AI camera counts cartons. An independent protective device interrupts operation. In the second one, the AI camera itself is intended to trigger the protection shutdown.

Test point	Purpose or comparison	Observation	Decision
Safe shutdown	12 of 12 scenarios	11 of 12 scenarios	reset protection function
Signal loss	Safe condition evidenced	evidence missing	Signal loss check again
Product descriptions in case of	Confirm mandatory third party review		Documenting procedures in product file

Expected result

A reliable release or provision file on the actual status and relevant evidence.

Determine the exact function, purpose and status of the project

Match the expected criteria and original documents with the case

Insufficient protection or specific registration

Counter-test and next decision

Replace the missing shutdown certificate with a successful follow-up test. Leave the tested combination in the product file outdated. The protection sample exists. The assignment to the delivered product stand remains open.

Match product function and registration documents

For your observation, specify a findable document.

Keep the product combination checked and the exact EU database entry as your own decision-making trail. Test some variations specifically.

Verification identification, legal entity and date of processing and responsible body

Product or system and tested version

Legal basis and proven competence

Tested security or registry path

Complete sample with target and observation

Evidence of actual use and own decision

Match product function and registration documents

Refer remedial and post-test to the original test order.

Findings and supporting evidence

Required technical review and case group

Tested follow-up test with date, observation and version documentation

Release, provision and location of receipt

Release by and on the open order and date
